The screenshot displays a student portfolio website with three main pages shown in separate browser tabs, each accompanied by a Lighthouse audit report.

**Top Tab: diary.html**

This page features a dark-themed header with navigation links: Главная, Проекты, Дневник (highlighted in red), Контакты, and Трекер технологий. The main content area is titled "Учебный прогресс" (Study Progress) and includes two sections: "История обучения" (History of Learning) and "Текущие курсы" (Current Courses). The "История обучения" section lists three completed tasks: "Верстка макета сайта" (December 15), "Основы JavaScript" (December 10), and "Работа с формами и валидация" (December 5). The "Текущие курсы" section shows two courses: "Веб-разработка" (90% completion) and "JavaScript & TypeScript" (70% completion).

**Bottom Tab: contacts.html**

This page has a dark-themed header with the same navigation links. The main content area is titled "Свяжитесь со мной" (Get in touch) and contains two sections: "Форма обратной связи" (Feedback form) and "Контактная информация" (Contact information). The feedback form asks users to fill out their name. The contact information section provides an email address (student@edu.ru) and a GitHub link (AlexandDarIn).

**Lighthouse Audit Reports**

Both tabs include a Lighthouse audit report on the right side. The reports show the following scores:

- diary.html:** 4/4 (Performance), 22/23 (Accessibility), 5/5 (Best Practices), 4/4 (SEO)
- contacts.html:** 4/4 (Performance), 27/27 (Accessibility), 5/5 (Best Practices), 4/4 (SEO)

The audit reports also mention that "Later this year, insights will replace performance audits". The Lighthouse interface includes tabs for Elements, Console, Sources, Network, and Lighthouse, along with a "PASSED AUDITS (4)" summary.

The screenshot shows a web application titled "Трекер изучения технологий" (Technology Tracker) running on a local server at <http://127.0.0.1:5500/pages/technology-tracker.html>. The application interface includes a user profile for "Дарын Александр" with navigation links for "Главная", "Проекты", "Дневник", "Контакты", and "Трекер технологий". The main content area displays a progress bar for learning technologies, showing "Изучено: 3 из 4" and a red progress bar at 75%. Below this, a section for "React Components" is shown with a green "Изучено" button and a note to "Нажми для смены статуса". The right side of the screen features the Chrome DevTools Lighthouse audit results, which are mostly green, indicating good performance, accessibility, best practices, and SEO. The system tray at the bottom shows standard icons like search, file explorer, and task manager, along with weather information (7°C, Дождь), system status (RUС), and the date/time (03.11.2025).
